

TYLER WINGOOD

202 Blush Hill Road, Waterbury VT 05676 · 802-503-2814

wingoodt@gmail.com

Resilient and steadfast individual who is transitioning careers into Information Technology and is committed to learning from the ground up. Currently taking the Google IT support specialist professional certification, with anticipation to obtain the CompTIA A+. Has the knowledge and experience starting a business, meeting goals, supporting change, and project management. Maintains a skillset that gives flexibility in a dynamic and ambiguous environment. Utilizes background in management to clearly communicate cross functionally within an organization. Specializes in project management, leadership, employee empowerment, problem solving, and training to empower teams and exceed expectations.

EXPERIENCE

APRIL 2022 -

MEDICAL CHART REVIEWER UNIVERSITY OF VERMONT

- Reviews medical files to evaluate the delivery of health care services for both patient populations and geographic location.
- Travel to medical facilities or provider offices to complete review services
- Perform reviews in a timely and concise manner along with documented rationale.
- Interact with health professionals in a professional manner.

APRIL 2022 -

PHARMACIST CONSULTANT ASPEN RX

- Perform patient outreach on behalf of patient health plans.
- Deliver MTM services to assess the appropriateness of all medications to optimize medication therapy and improve clinical outcomes
- Engage with patients to provide medication reviews, reconciliation, and patient education.
- Assess use of prescribed medication therapy for unnecessary medications, additional medication needs, inappropriate dosing, adverse drug reactions, ineffective medications, and adherence issues.
- Document all clinical recommendations, responses, and patient notes for submission to Aspen.

2020 TO MARCH 2022

CHIEF OPERATING OFFICER, EDGE PHARMA, LLC

- Provided executive oversight, direction, and decision-making consistent with the business' vision.
- Led and completed complex projects such as business acquisition, cleanroom construction, facility expansion, and new product development using a combination of project management methodologies such as Agile, Waterfall, Lean, and Critical Path.
- Established SMART goals to ensure that projects were timely, within budget, and the desired outcome.
- Used risk analysis tools such as FMEA, SWOT, or Risk Matrices when developing project plans to inform and provide recommendations to key stakeholders.
- Ensured effective change through proactivity, communication, consistency, empathy, and using feedback mechanisms.
- Actively addressed program barriers using RCA tools such as five why's and fishbone diagrams.
- Used data visualization tools such as tableau to showcase project deliverables.
- Ensured client-driven production deadlines were met through collaboration, goal setting, and setting expectations
- Worked cross functionally by performing weekly upper and midlevel management meetings using Microsoft (MSFT) PowerPoint and Teams.
- Established and maintained a company culture appropriate for a GxP Space by creating company values, establishing expectations, and guiding accountability.

2017 TO 2020

DIRECTOR OF OPERATIONS, EDGE PHARMA, LLC

- Supervised the pharmacy operation, production, logistics, and support departments.
- Mentored and trained the managers and coordinators of each operational department.
- Conducted employee appraisals, performance improvement plans, and offboarding.
- Established and maintained pharmacy compliance by writing, reviewing, and approving Standard Operating Procedures, procedures, forms, process flows, and work instructions.
- Provided pharmacist expertise when assisting customers, research and development, or as needed.
- Utilized Six Sigma and Lean principals to streamline production processes.

2013 TO 2017

PHARMACIST IN CHARGE, EDGE PHARMACY SERVICES, LLC

- Managed and performed compounding, facility maintenance, customer service, and quality assurance activities.
- Hired new employees, developed departments, and assisted with managing company growth.
- Assisted with tasks necessary for establishing a new business, such as developing procedures, reaching out to clients, and working in financial or administrative roles.

2012 TO 2013

STAFF PHARMACIST, NORTHWESTERN MEDICAL CENTER

- Ensured that facility procedures were followed when non-formulary medications were ordered.
- Reviewed, processed and monitored patient medication orders to evaluate appropriateness, dose, route of administration, adverse reactions, and age appropriateness.
- Verified technician prepared or prepared for dispensing all medications for patient specific use.
- Coordinated delivery of controlled substances to patient care units.
- Investigated and reported adverse drug events and medication incidents
- Compounded, dispensed, and monitored Intravenous drug therapy.

2011 TO 2013

STAFF PHARMACIST, KINNEY DRUGS

- Processed, filled, and provided consultation on patient prescriptions.
- Managed pharmacy inventory, including narcotics and medical devices.
- Performed vaccinations as needed.
- Managed a team of pharmacy staff to maximize prescription output while assuring quality service.
- Provided optimal health outcomes by corresponding with physicians, insurance providers, and patients.
